

SHAINA KRAMER

for NFTY-PAR PRESIDENT 5779-5780

WHO AM I?

I am currently a junior at Cherry Hill East in New Jersey! Outside of NFTY events, I love marine science and zoology, so you can find me at the Adventure Aquarium conducting research for my AP Research class at school. I also love the beach, so that's where you can find me most of the summer. I have two older siblings, my sister who is currently living in Sydney, Australia, and my brother who lives in San Francisco, California, and a cat, Casey, who loves to join my meetings a lot!

WHY AM I RUNNING?

NFTY as a whole has been a movement of great momentum, change, and inspiration for me and others, both inside and outside of our community. It has been an honor to be a part of this the past three years, but now, I would like to involve myself even more and contribute my ideas and philosophy on how we can continue this brilliant movement in our region, and on the North American level. The simple answer: I believe I have the ideas, character, and energy that this movement needs to continue in order to carry on the same momentum, change, and inspiration it has brought in my past time of NFTY.
